Yellow Springs Instruments,

The Engineering and Science Hall of Fame is an international organization honoring people who have made outstanding contributions to engineering and science which have, in turn, produced major improvements to quality of life.

Nominations due April 30, 2011

Dear Friend of Engineering and Science,

The Engineering and Science Hall of Fame (ESHoF) is an international non-profit organization honoring persons who have made outstanding contributions to engineering and science which have improved the quality of life for humankind. Our educational objective is to motivate and inspire young people to understand, appreciate and pursue careers in engineering and science. There are currently 50 world renowned enshrines including Wilber and Orville Wright, Thomas Edison, Enrico Fermi, George Washington Carver, Buckminster Fuller, and Jonas Salk. A description of the ESHoF including a list of all past enshrines is included on the website (www.eshalloffame.org).

The ESHoF invites you to nominate an exceptional individual or individuals whose career accomplishments satisfy the mission of the ESHoF. Please submit the nomination by April 30, 2011 for consideration by the selection committee for induction at the next enshrinement ceremony on Thursday, November 3, 2011. The ceremony will be at the Engineers Club of Dayton.

Complete the attached form to make your nomination. Mail the completed nomination form and attachments to the Engineering and Science Hall of Fame, c/o The Engineers Club of Dayton, 110 East Monument Avenue, Dayton, Ohio 45402.

If you have further questions, contact David Banaszak at 937-849-9140 or davebanaszak@juno.com. Please forward this request to other professional colleagues. Thank you in advance for your nomination and thank you for your support of engineering and science.

Respectfully,

Ben S. Graham, Jr.
President, Engineering and Science Hall of Fame

Attachment: Nomination Form.
