To become an ACerS member go to [www.ceramics.org/membership](http://www.ceramics.org/membership) to sign up – be sure to select ECD as your free division.

Already an ACerS member? If you haven't selected a division or want to change your division to ECD, call customer service at 1-866-721-3322, option 6 or 1-240-646-7054.

# The American Ceramic Society

## Engineering Ceramics Division

### Who We Are

The Engineering Ceramics Division of The American Ceramic Society stimulates interest in the development and utilization of technology that falls within the broad category termed engineering ceramics. Members accomplish this by means of meetings for the presentation and discussion of professional papers, publication of professional literature, and promotion of scientific and industrial research.

### Who Should Get Involved

Those working in research, industry, government labs or academia, focused on:

- Behavior of ceramics & composites
- Ceramic coatings
- Alternative & renewable energy
- Bioceramics & biocomposites
- Nanomaterials
- Porous ceramics
- Ultra-high temperature ceramics
- Multi-functional materials

### Highlights of ACerS Member Benefits

- Free unlimited online access to *Journal of the American Ceramic Society*, *International Journal of Applied Ceramic Technology*, and *International Journal of Applied Glass Science*.
- Subscription to the membership magazine, *ACerS Bulletin*
- Free online access to the member directory (find others who work in your area)
- Free copy of *ceramicSOURCE* (ACerS Buyers Guide) and online access, including free listings
- Member discounts on books, meetings, products and services
- Free membership in ECD

### ECD Benefits

- Eligibility for Division awards, such as the James I. Mueller Memorial Award, Bridge Building Award, and Best Poster and Paper Awards at ICACC
- Opportunities to organize symposia and volunteer at meetings
- Opportunities for Division leadership positions
- Travel grant opportunities
- Collaborate on projects and get published in Society publications
- Connect with others for technical collaboration and funding opportunities, talk to customers, or find vendors quickly and easily
- Network with distinguished members at division events

### Special Opportunities for Students and Young Professionals

- Volunteer opportunities to organize, speak/present at meetings
- Become published in Society publications
- Qualify for scholarships or travel grants
- Get involved in the Division from the ground up holding leadership positions early in your career
- Compete for Global Young Investigator Award at ICACC conferences

- Network with leaders in the field for career advancement and job opportunities
- Become part of the President's Council of Student Advisors or the Young Professionals Network

### Upcoming ECD-associated Meetings

- Materials Challenges in Alternative and Renewable Energy 2014
- Materials Science and Technology, MS&T'14
- 39th International Conference and Expo on Advanced Ceramics and Composites, ICACC'15
- International Symposium on Ceramic Materials and Components for Energy and Environmental Applications, 11th CMCEE
