

The American Ceramic Society Cements Division

GET INVOLVED TODAY:

Contact Division Chair [Kyle Riding](mailto:riding@ksu.edu) at riding@ksu.edu.

To become an ACerS member go to www.ceramics.org/membership to sign up – be sure to select Cements as your free division.

Already an ACerS member? If you haven't selected a division or want to change your division to Cements, call customer service at 1-866-721-3322, option 6 or 1-240-646-7054.

The American Ceramic Society Cements Division

Who We Are

The Cements Division of The American Ceramic Society is involved with the research, development, manufacture, and sale of cements, limes, and plasters. Developments in Portland cement occupy much of the Division members' efforts.

Who Should Get Involved

Those working in research, industry, or academia, focused on:

- Alternative cementitious materials
- Chemo/mechanical modeling of cement based materials
- Cement chemistry and nano/microstructure
- Durability & lifecycle modeling
- Rheology and Advances in SCC
- Smart materials and sensors

Highlights of ACerS Member Benefits

- Free unlimited online access to *Journal of the American Ceramic Society*, *International Journal of Applied Ceramic Technology*, and *International Journal of Applied Glass Science*.
- Subscription to the membership magazine, *ACerS Bulletin*
- Free online access to the member directory (find others who work in your area)
- Free copy of *ceramicSOURCE* (ACerS Buyers Guide) and online access, including free listings

- Member discounts on books, meetings, products and services
- Free membership in Cements Division

Cements Division Benefits

- Eligibility for Division awards, such as the Della Roy Lecture, the S. Brunauer Award or the L.E. Copeland Award
- Opportunities to organize symposia and volunteer at meetings
- Opportunities for Division leadership positions
- Travel grant opportunities
- Collaborate on projects and get published in Society publications
- Connect with others for technical collaboration and funding opportunities, talk to customers, or find vendors quickly and easily
- Network with distinguished members at division events

Special Opportunities for Students and Young Professionals

- Volunteer opportunities to organize and present at meetings
- Become published in Society publications
- Qualify for scholarships or travel grants

- Get involved in the Division from the ground up holding leadership positions early in your career
- Network with leaders in the field for career advancement and job opportunities
- Become part of the President's Council of Student Advisors or the Young Professionals Network

Upcoming Cements-associated Meetings

- 5th Advances in Cement-based Materials: Characterization, Processing, Modeling and Sensing
- Materials Science and Technology, MS&T'14
- 39th International Conference and Expo on Advanced Ceramics and Composites, ICACC'15
