ACerS CORPORATE PARTNERS

Your Connection to the Worldwide Ceramic and Glass Community

American Ceramic Society (ACerS) Corporate Partnerships allow your company to gain exposure to a global community of ceramic and glass professionals, access technical resources, recruit talent, and gain professional development resources for you and your employees—all while supporting your industry and ACerS, the leading professional society for ceramic and glass professionals.

WHAT YOU SHOULD KNOW ABOUT THE AMERICAN CERAMIC SOCIETY

The American Ceramic Society is a non-profit, professional society whose mission is to advance the study, understanding and use of ceramic and glass materials for the benefit of our members and society.

More than 10,000 scientists, researchers, engineers, manufacturers, plant personnel, educators, students, and marketing and sales professionals from more than 70 countries make up the membership of ACerS.

Since 1898, ACerS has been the hub of the global ceramics community and one of the most trusted sources of ceramic and glass materials and applications knowledge.

“We like the discounted rates on the expos, and the exposure is even better now because of the Corporate Partnership program. It’s perfect for building awareness and letting customers know that we support the Society.”

– Mary Stevenson, President
Deltach Furnaces
