Global Engagement in Ceramic Science and Technology (GECST) Program – 3rd year

The GECST program continued in its third year with the aim of encouraging, developing, and promoting students and young professionals in the field of ceramic science and technology through the active involvement and participation in the ECD. The program will also develop and foster cooperation among young professionals from different parts of the world. The program also sponsors the ACerS's Global Graduate Researchers Network (GGRN) Membership while encouraging an equal number of student sponsorships by Professors/Universities (allowing multi-year registration and leveraging of resources). ECD acknowledges Surojit Gupta's highly dedicated work for this program.

ECD has 1698 members as of August 31, 2018.

Future Planned Meetings/Activities (from Nov. 2018 – October 2019):

New Initiatives/Opportunities:

ECD Jubilee Global Diversity Award

This award is intended to recognize exceptional early- to mid-career professionals who are women and/or underrepresented minorities (i.e. based on race, ethnicity, nationality and/or geographic location) in the area of ceramic science and engineering. Every year, three early/mid-career women and minority professionals will be selected as ECD Jubilee Scholars. These women and minority scholars will make presentations at the ICACC in Daytona Beach, FL (annual meeting of the Division). These scholars will also be encouraged to mentor students and promote society related activities at their institutions. The 2019 award winners have been selected and their bio is posted on ICACC 2019 website.

ECD Volunteer Recruitment and Retention Activities

ECD is continuously working to recruit and retain volunteers and reward them with nomination for a number of division and society level awards.

ECD additional budget for GGRN membership

ECD ExCom approved additional \$1000 from ECD budget to support GGRN membership in additional to \$2500 from ACerS. This is a good use of ECD budget for investing in students and the future.
