

We are pleased to continue the **YouTube Research Video Contest** to engage young members and build excitement for the upcoming annual meeting! We hope you will consider submitting a YouTube Video promoting your poster or presentation to our student competition. These videos are to be posted by **June 3, 2019** on your personal YouTube accounts and postings should be made public.

We have some very simple rules:

- Submitter must be a student to be eligible for the award (but others may submit for fun!)
- The video title should be “ACerS Cements 2019 – insert your talk or poster title here” Please include in your description “This video presentation is part of the Cements Meeting organized by the [Cements Division](#) of the American Ceramic Society held at University of Illinois-Urbana Champaign in June, 2019”
- The length of the video should be 2 minutes or less
- Your video should promote your poster or presentation at ACerS in the most exciting way possible and inspire people to attend
- Include a link to your YouTube video in your presentation or poster while at the meeting
- Professional language and behavior required

This is a way to advertise your presentation or poster and your research to others in a new creative way. It will also help you get people attending the meeting excited about your work and hopefully seek you out to try and learn more.

There will be two cash prizes of **\$200.00** each given for the best videos. These will be determined at the meeting and by the excitement and interest generated by the videos.

Good luck!
