

STUDENTS get your creative juices flowing!

ceramics.org/pcsacreative

Compete in the 5th Annual ACerS PCSA Creativity Competition!

If you are a student and would like to participate in this contest, submit a picture or short video of your artwork along with the application form to PCSAcreative@ceramics.org by July 15, 2020.

Possible art categories:

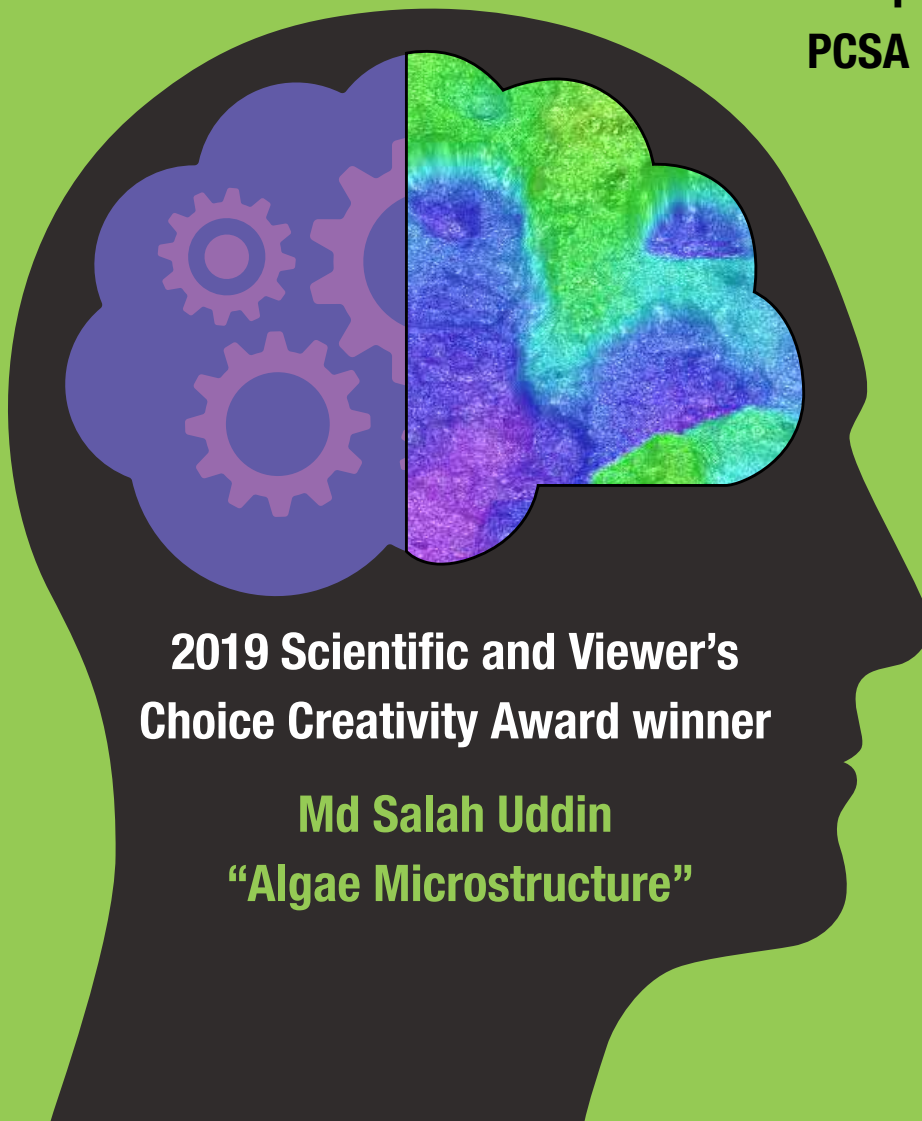

- Glassblowing
- Stained glass
- Pottery
- Ceramic 3-D printing
- Glass 3-D printing
- Artistic painting of a ceramic-related image
- Digital 3-D rendering of a ceramic-related process
- Other ceramic or glass-related forms of art

Winning categories:

1. **Scientific Creativity:** Art that creatively conveys effective scientific concepts and/or illustrates a technically difficult characterization or processing technique in beautiful form!
2. **Artistic Creativity:** Unique ceramic- or glass-inspired art that is attention grabbing and thought invoking!
3. **Viewer's Choice:** We'll be showing off your art through PCSA social media!

The submission with the most likes will win the Viewer's Choice Award.

Award trophies
sponsored by:

**2019 Scientific and Viewer's
Choice Creativity Award winner**

Md Salah Uddin
"Algae Microstructure"

**For more information and how to enter, go to
ceramics.org/pcsacreative.**

Winning art pieces will be displayed in the ACerS booth during the MS&T20 Conference in Pittsburgh, Pennsylvania, USA.

Contact PCSA delegate and programming liaison **Carli Marsico**, at carli.moorehead17@gmail.com for more information.
