

Dear Friends of ICG,

I am writing to send you the last news about the International Year of Glass 2022. We have surpassed the threshold of 1000 endorsers (today 1040) and we have the support of 72 countries. We are now forming an international SteCo to continue working and developing the huge work we have up to the end of 2020 and in 2021 after getting the approval of the General Assembly of United Nations in December 2020. Fundraising campaign, proposals of activities (international and national) and spreading these activities to the planet will be some of the tasks that we can face, and solve!!

I know that we will count on all of you, officers and representatives at ICG SteCo and Council. The IYOG2022 is a common dream and now is the moment to work for getting it.

I am attaching the last 2 Press Releases. We have now a LinkedIn account

(<https://www.linkedin.com/company/international-year-of-glass-2022>) that I invite you to follow to have the update every week.

Due to COVID we have changed the presentation that would be delivered in NY and Geneva to the representative of UN countries, to a presentation much wider through the YouTube channel of CSIC in the first week of November. You will receive the invitation by the middle of October and again 2-3 days before it including the link to attend. After the emission, the presentation will be upload at CSIC website and of course to all the websites of your institutions. Julian Jones, Mathieu Hubert and our young people is working very hard to make a wonderful presentation showing glass as the enabler material allowing to build a more sustainable and fair societies across the planet.

We continue receiving endorsements and remember that the support can be directly upload through the website [www.iyog2022.org](http://www.iyog2022.org)

Best regards and keep safe!!!
