

**SPECIAL ISSUE OF THE JOURNAL OF THE AMERICAN
CERAMIC SOCIETY: ENERGY MATERIALS**

CALL FOR PAPERS

The ACerS Energy Materials and Systems Division in conjunction with the editors of the Journal of the American Ceramic Society are developing a special issue of the Journal with Kyle Brinkman leading the guest editor team. The focus of this special issue is on Energy Materials in connection with the “Energy Materials and Systems for Sustainable Development” symposium which took place in October at MS&T 2021.

This issue aims to showcase the cutting edge of research and your work in this field is outstanding. On behalf of the Division, I invite you to submit your next manuscript to this special issue.

We plan to publish this special issue in late 2022. To achieve this goal, we ask that you submit your manuscript by 01-Jan-2022.

This focus issue includes the following primary topics:

- Energy Harvesting
- Solar Energy Conversion
- Storage Batteries
- Fuel Cells
- Capacitive, Chemical and Thermal Storage and Conversion

However, other technical submissions aligned with energy materials and sustainability are welcome along with reviews, critical reviews, and perspective papers.

To submit, select Special Issue Article under article type and add EMSD 22 to Special Issue Section at this link: <https://mc.manuscriptcentral.com/jacers>

Guest Editors:

Kyle Brinkman (lead), Clemson University

Armin Feldhoff, Leibniz University Hannover

Eva Hemmer, University of Ottawa

Krista Carlson, University of Nevada, Reno
