

## The Joint International Conference on Applied Physics and Materials Applications & Applied Magnetism and Ferroelectrics (ICAPMA-JMAG-2021)

December 1st – 4th, 2021 at Nongnooch Pattaya Garden & Resort, Thailand

Hosted by ACerS-Thailand Chapter and IEEE MagSoc Thailand Chapter

**ICAPMA-JMAG-2021** was successfully held at Nongnooch Pattaya Garden & Resort in a hybrid format. Domestic participants on-site attended the conference while the international participants virtually attended the conference via Zoom Meeting to barrierlessly exchange academic knowledge and experiences. There were greater than 550 participants from around the world joining the conference in 11 sessions and 6 special sessions. There were 3 plenary speakers, 29 keynote speakers, 64 invited speakers, and 19 international journals. ICAPMA-JMAG-2021 was kindly supported by more than 30 co-hosts and sponsors.

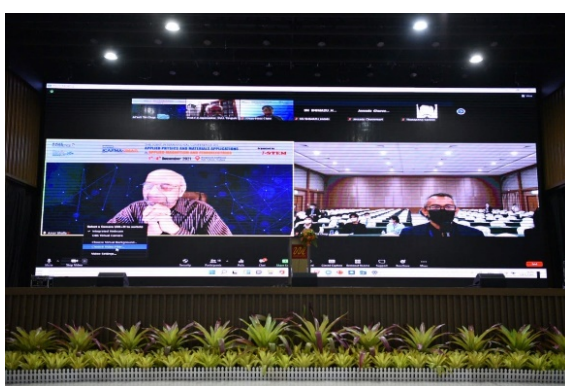

Our participants' safety from COVID-19 was our first priority, hence, everyone was tested for Covid-19 by using provided Antigen Test Kit at the registration on the first day at Nongnooch Tradition Center. After the registration, the welcome reception was organized at Thai village (Courtyard 9 Civilization). Our participants were welcome and impressed by the cultural shows as well as music shows. Under joyful atmosphere, they met old and new friends. They talked and exchanged ideas about their academic experiences. Their socializing created a strong network in the fields.

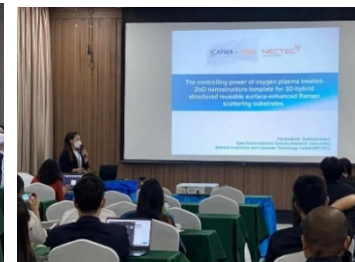

On the second and third day of ICAPMA-JMAG-2021, the conference was intensively full of knowledge and academics sharing. There were plenary talks from Prof. Dr. Amar S. Bhalla, Prof. Dr. Setsuhisa Tanabe, and Dr. Chris Rea. The oral presentations were held in 11 parallel sessions throughout the day and followed by a poster presentation session of many as 200 posters. Moreover, The 100<sup>th</sup> Anniversary of the Discovery of Ferroelectricity was also successfully held with both international and domestic speakers. There was also Acers- Thailand-Chapter and IEEE Magnetic Society Thailand-Chapter Committee meetings.

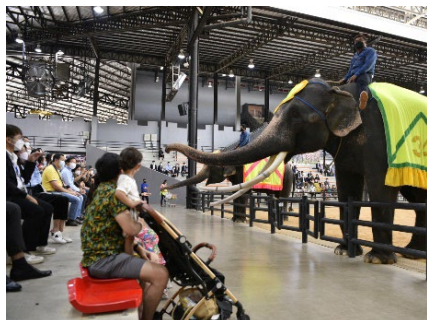

During the ICAPMA-JMAG-2021, the i-STEM organizer team professionally provided the interesting social activities along with the conference in order to generate and promote academic strength between colleagues. They were great teamwork. Furthermore, they and Nongnooch Garden team, another important alliance, worked so hard to make this great conference success. The food and performance provided by Nongnooch Garden team during dinner and banquet were incredible. Participants could relax and enjoy after each long day of the conference. Our team would like to give all participants the best experience from ICAPMA-JMAG-2021 and believed it went true.

We have also got many event pictures as well as positive feedbacks from participants. They can be easily seen via Facebook page ICAPMA-JMAG-2021. Also, they can be seen from hashtag #icapmajmag2021, #istem, and #NongnoochGardenPattaya on Facebook. Look forward to seeing everyone at ICAPMA-2023 in Thailand.
