INTERNATIONAL

The **ACerS Faculty Mentor Program** is designed to equip faculty members in materials science with the insight, tools and connections necessary to make a lasting impact in their university career.

If you are a **faculty member** seeking to gain pedagogical expertise in your field of study, professional development skills, practical advice, encouragement or support, then please consider applying for the program.

If you have been successful in your university career and are seeking to give back in any of these areas, then please consider applying to be a mentor. You will be leaving a lasting impact on an amazing faculty members (and their students)!

In addition to typical **mentor-mentee matches**, we also connect participants for **peer to peer** matches.

Space is limited! Sign up early to ensure a spot in this year's program. Find the mentorship application forms at www.ceramics.org/mentorship.

Visit www.ceramics.org/mentorship for more details and to sign up to be mentor, mentee, or peer-matched with the ACerS Faculty Mentor Program!
