WHO YOU WILL FIND ATTENDING THE 16TH ADVANCES IN CEMENT-BASED MATERIALS

Cement is the key ingredient in concrete—the most-used building material in the world—so every advance in understanding how it behaves presents an opportunity to reduce greenhouse gases, advance construction engineering, increase sustainability, and improve quality of life around the globe. The 16th Advances in Cement-Based Materials 2026 event will bring together leading global experts from universities, industry, research and development laboratories, and government agencies to collaboratively interact and explore advancements and the future of this key material.

Hosted and organized by:
