

Brought to you by The American Ceramic Society

The place to find ceramic & glass products, equipment, services, and connections

Introducing CERAMIC XCHANGE (CXC), the premier resource for your technical ceramic and glass application needs.

From refractories, raw materials, and advanced ceramics to test equipment, sintering, and chemicals, find what you're looking for to fit your business needs.

CXC provides access to a curated list of goods and services from technical ceramics and glass companies. This is the resource you need to find the tools and solutions for your day-to-day business.

The online database allows you to search by keyword, category, company name, and/or location.

*View CERAMIC XCHANGE (CXC) in your preferred language, with the support of Google Translate!*

The American Ceramic Society (ACerS) partners with leading companies to provide a targeted, consistent, and accessible directory of ceramic and glass material suppliers and technologies.
